PENROSE MEMORIAL LIBRARY WHITMAN COLLEGE
INTRODUCTION.

We herewith present to our patrons the second edition of the Walla Walla Country Directory, embracing in addition to a general directory of Walla Walla, giving names and residence of the inhabitants, a business directory of the important cities and towns of Waitsburg, Dayton, Pomeroy, Pasco City, Palouse City, Colfax, Spokane Falls and Cheney, Washington Territory; Lewiston and Moscow, Idaho Territory; and Milton, Weston, Centerville, Pendleton and Heppner, Oregon. It also contains much valuable information of a religious, educational and statistical nature.

Encouraged by the very favorable reception of the first edition of this directory, the compiler has spared no pains or labor to make this number a complete bureau of useful information on all subjects within the range of a directory. The recent city ordinance, numbering the houses of Walla Walla has materially aided the compiler in his task, and made the work of more value to the general public. This can be readily observed at a glance.

Since our last issue, the city of Walla Walla has made rapid progress. Several fine and costly buildings have been erected; notably the Odd Fellows Hall, and the County Court House, and a number of fine buildings for commercial purposes. A large amount of capital has been invested in new enterprises and industries; and several additions to the city have been surveyed and the lots find ready sale, and are being built up rapidly. The price of real estate has ruled very high during the past year, and is steadily rising, and property within the city limits has nearly doubled in value within the past year. The report of our health officer shows a very small death rate, and that we possess probably the healthiest location on the coast.

Last summer ground was broke on the north side of the city by the O. R. & N. Co. for a railroad hence to Grange City and the country beyond. The work was pushed rapidly while the weather permitted;
the grade from this point to Grange City is nearly completed, and the
close of the year will place us in rail communication with the upper
country; a site for a large depot has been selected and purchased, and
property in the vicinity thereof, heretofore of but little value, now finds
ready sale at a very high price, and without depreciating the value of
property in other portions of the city. The city of Walla Walla posses-
ses many peculiar advantages. It is situated in the midst of a large
scope of the best agricultural lands in the world. It has a solid foundation
of wealth and enterprise. Its business men are alive to its advantages
and are always ready to develop and encourage new industries and ex-
tend help to any laudable enterprise having for its end the advancement
of the city's prosperity; and as the time is nearly at hand when it will
have cheap and easy communication with the ocean on the one hand,
and the East on the other, its many advantages of location, soil and
climate will attract capital and population that will ere long make it an
important center, and the metropolis of Washington Territory and
Eastern Oregon. The adjacent cities and towns have materially ad-
vanced within the past year, more particularly those having a near
prospect of railroad communication with the outside world. There has
been a steady stream of immigration in this direction during the past
year, and the immigrants, as a class, have come well provided, and
are intent upon making this country their home, and we see on every
hand evident signs of improvement and progress.

Last year we predicted a great advance in population and wealth.
We are pleased to record in this number that our predictions were more
than realized, and far exceeded our most sanguine anticipations; we
hope that what we have achieved in the last year is only a slight earnest
of the near future, and that our section will continue to develop its
wonderful resources and attain a substantial prosperity.

We are grateful for the patronage of the business men of Walla Walla,
and adjacent towns and cities, and to all for the courtesies and assistance
given to the compiler in his work, and we hope that this edition will meet
with the approbation of those for whom it is intended, and that it will
fill the want hitherto felt for a complete Directory.

Very Respectfully,

THE COMPILER.

Membership fee, $5; quarterly dues, $1, payable in advance; transient rates, 50 cents per month—such persons, where unknown, are required to make a deposit of money equal to the value of the book they wish to take from the Library; the use of the Library, without the privilege of removing books, 25 cents per month.

ST. MARY'S HOSPITAL—Situated on Poplar street, between Fifth and Sixth streets. The building is a substantial brick, three stories high, with a basement. Architecturally the building is an ornament to the city, and reflects great credit upon the Sisters of Providence, for whom and under whose supervision it was erected. The hospital has a capacity to accommodate about sixty or seventy patients. To speak of the care patients receive at an institution of this kind is superfluous—it is always good. The hospital is under the charge of the Sisters of Providence, Sister John of the Cross, Superintend. 

STAIR'S OPERA HOUSE—Nos. 27 and 29 East Main street; is a well appointed theatre, and is the popular place for theatrical representation. John H. Stahl, Proprietor.

ADELPHI THEATRE—No. 216 Main street, between Fourth and Fifth. Fannie Grant, Proprieteess.

ODD FELLOWS' BUILDING—Situated on corner of Main and Fifth streets; built by Enterprise Lodge No. 2, I. O. O. F., of this city, during the past summer; is specially adapted to supply the various secret organizations with halls, both pleasant and safe, in which to meet. The building has a frontage of 60 feet on Main street, by a depth of 87 feet; two stories high, with a cupola; built of brick, under the supervision of the Board of Trustees of this popular order, composed of the following gentlemen: E. Baumeister, Charles Abel and Harry Wintler, at a cost of about $17,000. The ground floor is divided into two spacious store rooms, with a stairway between, leading to the second floor, which contains two large halls with ante-rooms, and, one of which is occupied by the Enterprise Lodge of the I. O. O. F., the other by the different Masonic orders.
COUNTY COURT HOUSE—Built in the center of the block bounded by Main, Fifth, Sixth and Alder streets; was commenced the past summer, and will be finished this year; is built of brick; two stories high, with a basement, at a cost of about $50,000, when completed. This building is an ornament to the city of Walla Walla, and reflects credit upon the county; likewise places the architect who designed the building, and the contractors who built it in the front rank of their calling. The building will have suitable offices for all the county officers, with a good fire-proof vault for the safe-keeping of the county archives, and supplies a want that has been long needed. The basement will be fitted up for a county jail, providing good quarters, as well as safe, for the county prisoners.

POSTAL REGULATIONS.

RATES OF DOMESTIC POSTAGE.

The following are the rates of postage chargeable on domestic mail matter of the different classes:

The mode of computing the rates upon inland letters (i.e., letters from one office within the United States or Territories to another) is as follows, to-wit: Single rate if not exceeding half an ounce; double rate if exceeding half an ounce, but not exceeding an ounce; treble rate if exceeding an ounce, but not exceeding an ounce and a half; and so on, charging an additional rate for every additional half ounce or fraction of half an ounce.

Three cents is the uniform single rate established by law on domestic letters.

FIRST-CLASS MATTER.

Letters and other written matter, any matter containing a written inscription in the nature of personal correspondence, and matter which is sealed against inspection, are alone by their nature and the intent of the law first-class matter, and subject to the postage rate of three cents for each half ounce or fraction thereof.

On local or drop letters, at offices where free delivery by carriers is established, two cents for each half ounce or fraction thereof.

On local or drop letters, at offices where free delivery by carriers is not established, one cent for each half ounce or fraction thereof.

Postal Cards—One cent each, which includes cost of card.

SECOND-CLASS MATTER.

Mailable matter of the second class embraces all newspapers and other periodical publications which are issued at stated intervals, and as frequently as four times a year, and are within the following conditions:

First—It must be regularly issued at stated intervals, as frequently as four times a year, and bear a date of issue and be numbered consecutively.

Second—It must be issued from a known office of publication.

Third—It must be formed of printed paper sheets, without board, cloth, leather, or other substantial binding, such as distinguish printed books for preservation from periodical publications.

Fourth—It must be originated and published for dissemination of information of a public character, or devoted to literature, the sciences, arts, or
some special industry, and having a legitimate list of subscribers; provided,
however, that nothing herein contained shall be so construed as to admit to
the second-class rate regular publications designed primarily for advertising
purposes, or for free circulation, or for circulation at nominal rates.

THIRD-CLASS MATTER.

Mail matter of the third class embraces books (printed and blank), tran­
sient newspapers and periodicals, circulars, and other matter wholly in
print, proof-sheets and corrected proof-sheets and manuscript copy accom­
panying the same, prices current with prices filed out in writing, printed
commercial papers filled out in writing (provided such writing is not in the
nature of personal correspondence, and the papers are not the expression of
a monetary value or the assumption of an obligation, or a release, or a re­
cipt), such as papers of legal procedure, unexecuted deeds of all kinds, way­
bills, inv0ices, unexecuted insurance policies and the various documents of ins­
urance companies, hand-bills, posters, chrono-lithographs, engravings, en­
velopes with printing thereon, heliotypes, lithographs, photographic and
stereoscopic views with title written thereon, printed blanks, printed cards;
and, in general, all impressions or copies obtained upon paper, parchment,
or card-board, by means of printing, lithographing or any other mechanical
process, except the copying press, and postage shall be paid thereon at the
rate of one cent for each two ounces or fractional part thereof.

All packages of matter of the third class must be so wrapped, with open
sides or ends, that their contents may be readily examined by postmasters.

Third-class matter may be registered.

The limit of weight of packages is four pounds, except in cases of single
volumes of books in excess of said weight.

FOURTH-CLASS MATTER.

Mailable matter of the fourth class embraces blank cards, card-board and
other flexible material, flexible patterns, letter envelopes and letter paper
without printing thereon, merchandise, and samples of merchandise, models,
ornamented paper, sample cards, samples of ores, metals, minerals, seeds,
cuttings, bulbs, roots, scions, drawings, plans, designs, original paintings
in oil or water colors, and any other matter not included in the first, second
or third classes, and which is not in its form or nature liable to destroy, de­
face, or otherwise damage the contents of the mail bag, or harm the person
of any one engaged in the postal service. Postage rate thereon, one cent
for each ounce or fractional part thereof.

Articles of the fourth class which, unless properly secured, would be un­
mailable as liable to destroy, deface, or otherwise damage the contents of
the mail bag, or harm the person of any one engaged in the postal service,
may be transmitted in the mails when they conform to the following con-
ditions: 1st—They must be placed in a bag, box, or removable envelope made of paper, cloth, or parchment. 2d—Such bag, box, or envelope must again be placed in a box or tube made of metal or some hard wood, with sliding clasp, or screw lid. 3d—In case of articles liable to break, the inside box, bag, or envelope, must be surrounded by saw-dust, cotton or spongy substance. 4th—In case of sharp-pointed instruments, the points must be capped or encased, so that they may not by any means be liable to cut through their enclosure; and where they have blades, such blades must be bound with wire, so that they shall remain firmly attached to each other. 5th—The whole must be capable of easy inspection. Seeds or other articles not prohibited, which are liable, from their form or nature, to loss or damage, unless specially protected, may be put up in sealed envelopes, provided such envelopes are made of material sufficiently transparent to show the contents clearly, without opening.

The limit of weight of packages is four pounds. Fourth-class matter may be registered.

UNMARRIABLE.

Liquids, poisons, explosive and inflammable articles, fatty substances easily liquefiable, live or dead animals, (not stuffed), insects (except queen bees when safely secured), and reptiles, fruits or vegetable matter, confectionery, pictures or confections, and substances exhaling bad odor; and every letter upon the envelope of which, or postal card upon which indecent, lewd, obscene, or lascivious delineations, epithets, terms, or language may be written or printed, and all matter concerning lotteries, so-called gift concerts, or other similar enterprises offering prizes, or concerning schemes devised and intended to defraud the public, or for the purpose of obtaining money under false pretenses.

THE REGISTRY SYSTEM OF THE UNITED STATES.

The registry system is intended to secure to valuable mail matter in its transmission through the mails the utmost security within the province of the postoffice department.

First, third and fourth-class matter may be registered. First-class matter, or matter on which letter rates, or postage have been paid, must always be sealed. Third-class matter and fourth-class matter must be unsealed, fully prepaid at the proper rates, and conform to all requirements. No matter excluded by law from the mails can be registered.

The fee on any registered matter, domestic or foreign, is fixed at ten cents on each letter or parcel, to be affixed in stamps, in addition to the postage. Two or more letters or parcels addressed to, or intended for, the same person cannot be tied or otherwise fastened together and registered as one.

WAITSBURG.

A flourishing town, easily situated at the junction of the Touchet and Coppei creeks, and distant from Walla Walla 18 miles, on the principal road leading to the great Palouse country. All branches of business are here represented and the place has quite a commercial air about it that strikes all new comers favorably. Since our last annual addition, this town has been visited by a conflagration that destroyed the entire business portion of the town, which entailed great hardship and loss upon the entire business community. With that energy that has always characterized the business men of this town, and having faith in the future of Waitsburg as a business center, each merchant and mechanic immediately commenced the erection of new stores and workshops, and, to the stranger, the town presents an appearance of having had a rapid growth within the past year. The town will, ere the coming summer draws to a close, have railway connection with Walla Walla, by a branch of the O. R. & N. Co., the influence of which is already making itself noticeable in the increased demands for building sites, and the erection of homes by new comers. An excellent public school building was erected a few years ago, in which is maintained as good a school as can be found in the county, with a sufficient number of churches to accommodate the entire population. The Waitsburg Times, a lively newspaper published by J. C. Swash, is printed here, and is doing much towards advancing the interests of the town and surrounding country. The location of the town is beautiful and healthy, and possesses all the elements of growth and prosperity. Waitsburg was incorporated as a town by the last legislature, February 18th, 1881, with the following officers:

TOWN OFFICERS.

Board of Trustees—George Kellicutt, President; Wm. Fudge, E. L. Powell, Al Brouillet, M. J. Harkness.

The Only First-Class Gallery in the Territory,
DAYTON.

This town, the county seat of Columbia County, is situated on the Touchet river, 28 miles northeast of the city of Walla Walla, and should be one of the most prosperous places in the Territory, owing to the fertility of the thousands of acres of choice agricultural lands which surround it, and its advantages as a manufacturing center. But the citizens of Dayton have not displayed that energy that all new towns require. They have been in a prolonged sleep from which they are now awakening to a realization of their lost opportunities and are exerting themselves to overcome this lethargy. The town, which was laid off in 1871 by Jesse Day, Esq., now contains about 1200 inhabitants, a number of manufactures, including the Dayton Woolen Mills, Flouring Mills, and lesser industries. During the past year the O. R. & N. Co. have built a road bed to Dayton, and by harvest time, 1881, this town will be connected by iron bands with Walla Walla and Portland. The Oregon Improvement Company are now engaged in building a flume from the mountains and making large outlays of money and other improvements, which will greatly benefit the town. The two papers, the News and Chronicle, are both edited with marked ability and untiring in their efforts to bring the resources of the country before the people. Although the town has had a set-back by the recent large fire it is rapidly recovering from the effects and the burnt district is being rebuilt. Aside from this several new buildings have been erected, the most important of which is the brick building built by Messrs. Dusenberg & Stencel.

POMEROY.

Three years ago, what is now known as Pomeroy was a mere way station for stages, but by the perseverance and indomitable energy of its founder, J M Pomeroy, Esq., it has grown into a town of no small importance, and with a population which aggregates about three hundred. Pomeroy is located on the Pataha creek, about midway between Dayton and Lewiston, and has quite an air of enterprise and push about it. In the near future it is the intention of the O. R. & X. Co. to extend a branch of their road along the Pataha creek, which will greatly enhance the value of property in this town and the surrounding country, and give a fresh impetus to business. In a commercial sense Pomeroy is in a flourishing condition, with business in a healthy state, and the prospects for future prosperity greatly advanced by the proposed railroad. Among the manufacturing interests, for which the creek furnishes excellent water power, is a grist mill, a saw mill and a moulding factory, all of which are well patronized. The Washington Independent, published here by F. W. D. Mays, is doing herculean work towards the development and improvement of the country.

PATAHA CITY.

Three miles east of Pomeroy, and nestling among the hills is the beautiful little town of Pataha City, Columbia County, which derives its name from the sparkling creek on the banks of which it is situated. Pataha City, although not as large as its neighbor in point of population, its inhabitants are fully as energetic and its business interests nearly as great. Pataha City boasts of a grist mill that has not a superior in the way of structure or improved machinery, in the upper country, and which is always pushed with work. The stages bound to and from Lewiston make their stoppages here and change relays of horses. For its support Pataha City depends principally on the vast bodies of fine agricultural and grazing country that stretches out on all sides, and which is capable of placing any town in a state of prosperity. The citizens of this town look forward to an early completion of the railroad with great hope and anticipations for the country’s future welfare. The Pataha City Spirit is doing much toward placing this rich country before the incoming immigration in a proper light. The great want of this place and surrounding country is the facility of more speedy transportation of the products of the country to market. The managers of the O. R. & N. Co. have given assurance that this will be done in the near future.

COLFAK.

Colfax, the County seat of Whitman County, nestles at the confluence of the south and north forks of the Palouse. The stranger, until within half a mile of it, has no suspicion of the thrifty stirring town. The smoke that he has seen for miles curling towards the bending skies, and imagines are but, whiffs from Indian wigwams, arises from furnace throats and mill chimneys, leaving far below the whir of many wheels and the steady pulsations of gigantic, throbbing, ceaseless machinery of endless production. As he arrives on the brink and looks down on the gleaming Palouse, broken only by church steeples and school belfreys, he sees one of the prettiest sights that ever blest his eyes, and in a few minutes he is one of a living swarm of humanity, winning bread by the sweat of the brow, as was ordained in the beginning, and presenting to him an example that, with emphatic certainty, tells him that "he who wins must work." Colfax has a population of about six hundred enterprising, prosperous and contented people. The schools are full, its prisons empty, its saloons are gildless, its churches large and comfortable, its mills, factories and warehouses thrive, its corners are loaferless. On the main street are its busy cheerful stores, while on either side of the Palouse, perched on its impending slopes are its beautiful growing gardens surrounding pretty cottages, enlivened by romping, bright-eyed children. On the eastward, down the slope of the Palouse, runs the O. R. & N. Co's line, over which will glide the iron horse before our next annual Directory is compiled; thence northeasterly, up the North Palouse, penetrating the wonderful grain belt winds the continuation of the rail that will make Colfax a proud and great mart of mercantile exchange. The energy of the business men of Colfax is the subject of remark by all strangers visiting there, and right well do they deserve the high commendations passed upon them.

Brodeck & Co. are the Leading Photographers,
PALOUSE CITY.

Palouse City, Whitman County, is situated on the North Palouse river, 18 miles east of Colfax, in the most fertile portion of the great Palouse country, from which it derives its name. It is located in the most picturesque portion of this truly magnificent country, surrounded by the finest wheat growing lands in the Territory. The Palouse river affords good water power sufficient to drive the machinery of a flouring, and a saw mill, affording also at high stages of the water, a medium for raising logs to the mill. This town, like the whole of this great country, was, until the last three or four years ago, an almost unexplored region—was the home of the noble red man. Civilization knew nothing of the capabilities of the soil to produce the cereals—its fame as a wheat growing country now extends to the exterior bounds of the United States, and is attracting the attention of the honest, steady yeoman from all parts of our land. Palouse City contains a population of between two and three hundred. All the different branches of business is represented here. Powers Bros. controls the general merchandise business; Geo. Henwood sells the drugs and medicine; McClure makes the saddles and harness; Johnson & Ettinger the furniture, doors, sash, etc.; J. L. Miller, at the Pioneer Hotel, takes good care of the traveler, and Banks, the blacksmith, "tells them who got it up."

CHENEY.

This town, located in the heart of the agricultural section of the Pend'Oreille division of the N. P. R. R., promises soon to become an important town, if not the principal town of Eastern Washington Territory. It is pleasantly situated in a grove of pine timber, and of easy access to different parts of the country. The town derives its name from the Hon. R. P. Cheney, one of the principal directors and stockholders of the N. P. R. R. Though the first buildings were erected late in the fall of 1880, the town presents the appearance of quite a city. Cheney was selected at the last election as the permanent county seat of Spokane County. [The election was contested by Spokane Falls; the case is still in the courts: the people of these two rival towns are sanguine they will win the county seat.] Town lots can be purchased of the railroad company at very reasonable prices. Money thus invested doubtless will yield large profits. There is not a more energetic and thriving town in Eastern Washington. Business of all kinds are represented here. Payne & Rich control the general merchandise business. Maloney & Brooks are the leading liverymen. The commercial Hotel, H. W. Doane, proprietor, is the place to stop; Dr. J. S. Hoyt cures the sick, and Linton & Marshall always have fat beef for their customers. The Northwest Tribune, published here by Lucien E. Kellogg, is one of the leading papers of the Northwest.

SPOKAN FALLS.

Spokane Falls is situated on the Spokane river, at the falls of the same, from which the town derives its name. In the way of location Spokane Falls is without a rival, being on the line of the N. P. R. R., in the midst of choice agricultural and grazing lands, convenient to timber of the finest kind and with unsurpassed water power, which will make it a manufacturing place of no small importance. The town has a population of between five and six hundred resolute and sterling inhabitants, all of whom are alive to the interests of the place in which they reside. Business of all kinds is represented here, and is in a flourishing condition. Since the county was organized—less than two years ago—Spokane Falls has been the county seat; the last legislature, however, ordered an election to be held to select a permanent county seat. The town of Cheney was the successful competitor, but Spokane Falls, with that indomitable energy of which she is possessed, is contesting the election, the suit being now in the courts and will be settled at the next regular term.

Next to Walla Walla, Lewiston is the oldest town in the upper country, having been established simultaneously with the discovery of the rich placers of Oro Fino and Salmon river. In the palmy days of the gold excitement, it was the most important point in the Northwest, and was the capital of Idaho Territory on its organization. It bears the reputation to-day of affording to individuals greater opportunities for the rapid amassing of fortunes than any other place. Its trade extends far into the British Possessions and the Bitter Root mining camps, but its main sustenance is derived from the large agricultural districts which surrounds it, and which embraces nearly the whole of the adjoining prairies on the north, and a corresponding tract of agricultural prairies on the south and east, of which Camas prairie is the most important. Situated at a point where the Clearwater effects a junction with the Snake river, at the head of navigation with that stream, it will be seen that an immense trade is of necessity concentrated at Lewiston. Its population is about one thousand. Two newspapers are published here—the Lewiston Teller, published by A. Leland & Son, and the Nez Perce News, by Aaron F. Parker. Each of them are zealously working to advertise the great resources of Northern Idaho. The surrounding country is well adapted for flax-raising, and an oil mill is now being erected in Lewiston for the utilization of that product. The town has all the concomitants of a civilized community, churches, schools, e.c., with business of all kinds represented, and in a flourishing condition. There is no town that offers greater inducements for the profitable investment of money, or whose prospects for the future are so bright as Lewiston. The altitude of Lewiston is 619 feet above the sea level.

Is a thriving little town in Paradise Valley, Nez Perce Co., Idaho; nearly 25 miles due North of Lewiston, and about an equal distance East-south-east from Colfax, W. T. The original founders were John Russell, A. A. Lciuallen, and S. M. Neff; Messrs. Russell and Lciuallen having selected the site and given it a name; Mr. Neff was the first merchant. This was in the summer of 1876; and the Postoffice department at once supplemented the action of the local organizers, by establishing Mr. Lciuallen as the first postmaster. Paradise Creek flowing through Moscow, is a tributary to the South Palouse River. Taking Moscow as the centre and a radius of fifteen miles surrounding it as the circle, it would be difficult to improve upon it, either in the way of fertile soil, fine scenery, or healthy climate. And seekers for homes have shown their good judgement, as is seen from the fact that the Moscow country is being rapidly filled with a wide-awake, thrifty and intelligent population. Preachers and school teachers are in demand, and there is no material lack in the supply. The population of Moscow is about two hundred. Business of all kinds is represented here, and the enterprise of the business men is the subject of much comment by visitors. Moscow possesses all the elements for a rapid growth. Good lands in every direction, plenty of wood and water, with a climate that, for health, has no superior.

WESTON.

Weston, Umatilla County, is situated about 20 miles south of Walla Walla, on the line of the U. O. & I. Stage Co. Population 1000. From the number and advantages of its schools, the city is destined to become the Athens of Eastern Oregon. Four religious denominations are represented—Episcopalian, Presbyterian, Baptist and Methodist. The Weston Leader, a racy and newsy journal, founded by Mr. W. L. Black, in 1878, and now owned and controlled by Messrs. Williamson & McColl, is the ablest newspaper in the county. A division of the present county is confidently looked for by citizens of both ends of the county, and when consummated it will give this beautiful little city the seat of government under the new regime, while Heppner will have the prestige in the other part of the division. The proposed railroad, direct from Walla Walla via Milton to this place, will add one more link to the chain, which shall bind Weston and the immense agricultural country surrounding, to the outside commercial world.

PENDLETON.

Pendleton, the county seat of Umatilla County, Oregon, is 42 miles from Walla Walla, in a south-westerly direction. The city is located on the banks of Umatilla river, and about 36 miles from the town of that name. Owing to the U. O. & I. Company's action in making it a stage center the growth of Pendleton has been greatly accelerated. The population comprises about 800, who are enterprising and intelligent and ever alert for an opportunity to benefit the town. Business of all kinds is in a flourishing condition and the prospects of continued prosperity are very bright. Pendleton, was, by the last legislature granted a city charter; she now boasts of a mayor and common council. At the election for city officers Judge Win. C. LaDow was chosen the first mayor; a better selection could not have been made for that honorable position.

HEPPNER.

This town is situated some sixty miles southeast of Pendleton, on the Dalles branch of the U. O. & I. Stage Co's line, in one of the many canyons which slope from the Blue Mountain range toward the Columbia. Willow creek flows through the town and furnishes water all the year round, which is utilized by a large flaxseed mill. Population about 500. The largest and handsomest school building in the county is located here; a commodious church office, owned by the Baptists, is used alternately by the different religious denominations. The revenue of the town is principally derived from stock-raising, although agriculture is well represented, the country surrounding being very rich and fertile. It is the only inland town in Oregon that uses coal exclusively for fuel. A large and extensive coal mine, discovered several years ago, is located about ten miles from town, in the mountains, easy of access, and the bar promples to be one of the leading features of trade in this thriving town. When Umatilla County is divided this place will undoubtedly be a county seat. The people are energetic and enterprising, and all branches of trade and industry well represented.
